# A NEW LEVEL OF INDUSTRIAL CYBERSECURITY

The industrial environment is undergoing digital transformation. Industry 4.0 is reshaping operations and driving stronger convergence between IT and OT systems - increasing efficiency on one hand, but also exposing organizations to new cybersecurity threats.

Our specialized Cybersecurity Operations Center is responsible for continuous security monitoring and incident response across client environments. With our expertise, we help industrial companies ensure operational continuity and strengthen resilience against cyberattacks. Furthermore, we have strengthened our partnership with Cisco by incorporating its Cyber Vision solution. Together, we deliver a robust approach to OT security, combining comprehensive visibility with protection to ensure uninterrupted operations.

SOLUTION OVERVIEW
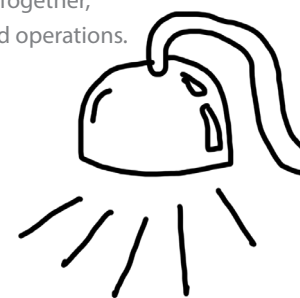

24/7 Security Monitoring
of all systems, devices, and networks

Secure data centers
within and outside the EU

Experienced and certified experts
dedicated to OT & IT security operations

Rapid detection and response
reducing mean time to detect and resolve (MTTD/MTTR)

Full support
for both IT and OT infrastructures

High service availability
(SLA 99.8%)

SOITRON*

TARGET AUDIENCE

Our solution delivers tangible value to everyone in the organization — from strategic leaders and technical specialists to executive management.

Strategic leaders
An integrated OT security strategy that minimizes business risk, enhances cyber resilience, and ensures regulatory compliance — delivering a modern, future-ready approach to industrial protection.

OT and Security Specialists
Advanced visibility into OT environments through automated segmentation and seamless integration with IT security tools, simplifying OT security management and accelerating incident response.

Top Management
Reduced downtime, increased operational resilience, and protection of critical assets — creating a secure foundation for continuous production and digital transformation.

TARGET INDUSTRIES

We secure your IT and OT environments, helping you achieve greater efficiency and operational continuity in your industry — whether you operate in energy, manufacturing, transportation, healthcare, or other critical infrastructure sectors.

Manufacturing (Automotive, Electrical, Mechanical Engineering)

Healthcare Facilities

Energy and Utilities

Gas, Petrochemical, and Chemical Industries

Transportation, Logistics, and Smart Infrastructure

Critical Infrastructure

SOITRON, member of SOITRON Group

Soitron is a Central European integrator operating in the IT market since 1991. The company's philosophy is to constantly move forward, and that is why it is a leader in implementing unique technologies and innovative solutions. It offers its clients products and services in the field of network and communication solutions, cybersecurity, data centres, IT outsourcing, IT support and advisory. Its product portfolio includes smart police car solutions – Mosy and cybersecurity services – void SOC (Security Operations Center).
Soitron is a part of the Soitron Group and employs more than 850 international experts. The group brings together professional teams in Slovakia, the Czech Republic, Romania, Turkey, Bulgaria, Poland, and the UK.
